Dear Dr. Boyce Davies:

This acknowledges receipt of the final reports (narrative and financial and separate evaluation report) for your grant to enhance the capacity of Haitian teachers and improve the quality of education by providing training opportunities for teachers through an education policy day and a series of education workshops at the Caribbean Studies Association conference in Haiti which ended April 30, 2017. These reports have been reviewed and are approved for our records.

With the submission of your final reports, the conditions relating to the foundation's commitment have now been fully satisfied, and we are officially closing this grant.

We are pleased to have had this opportunity to assist Caribbean Studies Association Inc in accomplishing your goals.

Sincerely,

A handwritten signature in black ink, appearing to read 'Alix Cantave', with a long horizontal flourish extending to the right.
